DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 1-14 and 22 are rejected under 35 U.S.C. 102(b) as being anticipated by Mayville et al (US 2002/0189390).

Mayville et al disclose a conduit (col. 1 lines 10-31), a flexible core element (col. 1 lines 10-30) extending through the conduit, an elongate body (12) having a bore disposed longitudinally there through and an abutment end (see Fig 6), a first arm (31) unitary with and extending from the elongate body in a plane (see Fig 5), having a proximal end and a distal end and comprising a first projection (52) from a surface of the first arm (see Fig 6), and a second arm (31) unitary with and extending from the elongate body in a plane (see Fig 5), having a proximal end and a distal end and comprising a second projection (52) from a surface of the second arm (see Fig 6), wherein the first arm comprises a first tab member (unnumbered member at the end of 52) extending from the distal end of the first arm in a direction offset from the plane of the first arm (see Fig 5) and wherein the second arm comprises a second tab member (unnumbered member at the end of 52) extending from the distal end of the second arm in a direction offset from the plane of the second arm (see Fig 5), wherein the first tab member and the second tab member each facilitate flexure of the first arm and the

second arm, respectively, when the first tab member and the second tab member are moved toward the longitudinal axis of the bore (see Fig 5), the first tab member and the second tab member extend from the first arm and the second arm, respectively; in a direction substantially parallel to the longitudinal axis of the bore (see Fig 6), a retaining member (30).

Allowable Subject Matter

3. Claims 16-21 are allowed.

Response to Arguments

4. Applicant's arguments with respect to the claims have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
